Waterfall via ferrata St. Anton im Montafon

🕒 Samstag 0:00 o'clock

Between thunderous waterfalls

Just above the center of St. Anton in Montafon is the new via ferrata Wasserfall. Although this via ferrata is considered easy to reach, it should not be underestimated. There are easy spots (grade B / C), as well as two vertical and exposed key locations (difficulty level C/D) in the via ferrata. An emergency exit is not possible.

The highlights are two suspension bridges over thundering waterfalls, fantastic views and a vertical rock face. Corresponding arm strength, freedom from giddiness and knowledge in via ferrata are urgently needed!
