Silvretta 3-lake tour

🕒 Dienstag 9:00 o'clock

This impressive and challenging e-mountain bike tour takes you past three gigantic reservoirs in the water-rich Silvretta Mountains. Starting in Partenen, the last village in the Montafon valley, the tour leads you steeply uphill through the picturesque Ganifertal valley to the Kops reservoir with its impressive dam. Over the Zeinisjoch and the European watershed, the tour continues to the Silvretta reservoir at 2,030 m, the highest point of the tour. The view of the glaciated 3,000-metre peaks will make the heart of every 'panorama addict' beat faster. The ideal place for a lunch break before descending the 30 hairpin bends of the Silvretta High Alpine Road. Information about the closure of the Silvretta High Alpine Road: If the Bielerhöhe is not passable, the guide will take an alternative route to the Neue Heilbronner Hütte. The meeting point and duration of the tour remain the same.

Veranstaltungsort

Seilbahnstraße 87b
6793 Gaschurn
